Lopez

Lopez is a medium sized business that produces a wide range of chocolate bars. It is located in Country A and currently only sells chocolate bars in that country. It has been in business for 6 years and has grown rapidly. Jennifer is the Managing Director of the company and her brother, Miguel, is the Marketing Manager. They sell most of their chocolate bars to small shops. These shops pay cash two months after the goods are delivered.

5

Lopez manufactures chocolate bars using batch production methods. Jennifer is considering changing to flow production if the company expands and sells its products to other countries. Jennifer wants the business to continue to grow rapidly. However, she worries about buying more raw materials to manufacture the chocolate bars because the present supplier cannot supply any more. Lopez pays cash for supplies on delivery. Also, more workers will need to be recruited to increase production and they may need to be trained. An additional member of staff will be needed to work in the sales department. This person will carry out general office duties but also deal with customer enquiries and take orders.

10

15

Miguel said, 'If we want to continue to expand we need to develop new products.' Jennifer replied, 'We will need to find out what type of sweets will appeal to potential customers in these countries; they have very different buying habits to our present customers. Our target market for these new products could be young children. These markets are likely to be very competitive.'

20

1,000,000 shares of \$1 each were issued when the company was founded. The shares are owned as shown in Fig. 1.

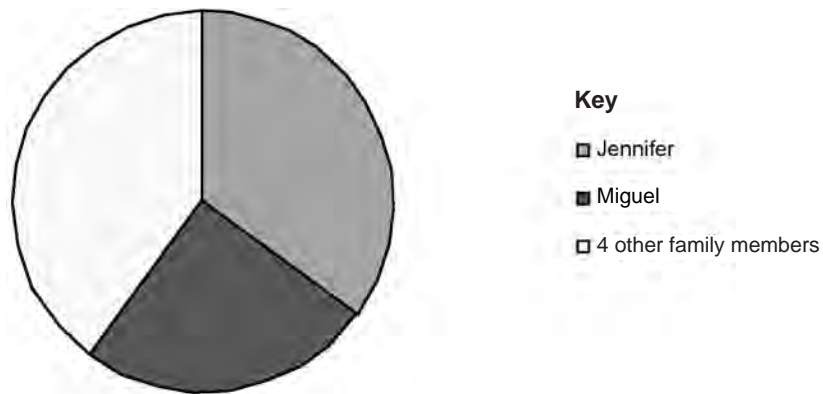

Fig. 1: Ownership of shares in Lopez

The financial performance of the business for the last two years of trading is shown in Table 1. Jennifer said, 'Profitability of the company is good. However, the cash flow has been a problem over the last two years and is still a problem.'

25

Table 1

Year ending 31 October	2005	2004
Gross profit ratio	80%	80%
Net profit ratio	25%	15%
ROCE (ROCE = Return on Capital Employed)	20%	10%

30

Table 2

Summary of the sales and raw material costs for Lopez in 2005 in \$'000

	August	September	October
Sales for the month	100	150	200
Raw material costs	20	30	40

35

Table 3

Summary of the cash flow for Lopez in 2005 in \$'000

	August	September	October
Cash from Sales	60	80	100
Total in	60	80	100
Raw materials	20	30	40
Wages	50	60	55
Expenses	5	5	5
Purchase of machinery			1000
Total out	75	95	1100
MONTHLY BALANCE	(15)	(15)	(1000)
Opening balance	20	5	(10)
Closing balance	5	(10)	(1010)
