BUSINESS STUDIES 7115/21

Paper 2 Case Study

October/November 2017

MARK SCHEME

Maximum Mark: 80

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2017 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is a registered trademark.

Question	Answer	Marks
1(a)	Identify <u>two</u> ways the size of AH can be measured. Explain the limitations of each of these measures.	8
	Knowledge $[2 \times 1]$ – award one mark for each way Analysis $[2 \times 1]$ – award one mark for a relevant explanation for each way Application $[2 \times 2]$ – award two application marks for each way	
	Award one mark for each way (maximum of two), such as: Capital employed Number of employees Sales revenue/revenue/income Output/quantity of services/number of customers	
	Do not accept profit	
	Award a maximum of three additional marks for each explanation – 2 of which must be applied to this context – of the way	
	Indicative response:	
	The number of employees (K) as the more employees a business has the larger the business. However, some businesses may use a lot of technology and therefore have fewer employees. (an) AH is a small business because it only has18 employees (ap) and it is also a service sector business as it looks after animals for their owners and therefore they do not use much technology. (ap)	
	Possible application marks: Animals; dogs; cats; pets; pet owners; washing and brushing animals; \$10 000 from grandfather; \$10 000 from bank loan; 12 adults and 6 children workers; information from Appendix 3 on the costs and revenue of AH.	
	There may be other examples in context that have not been included here.

Question			Answer		Marks
1(b)	Consider three methods of market research Elsie could use to find out the number and types of customers for the proposed locations. Recommend the best method for Elsie to use. Justify your answer.				12
	Relevant points might include:				
			Advantages	Disadvantages	
	Questionr (L1)	aires	Quantitative data – estimate size of market	Expensive to collect May not have expertise to collect accurate information	
	Interviews (L1)	,	Qualitative information— specific information on customer needs	Interviewer bias possible Expensive to collect	
	Focus gro	ups	Qualitative information	Answers may be influenced by other group members. Time taken to set up	
	Business reports/go ment stati (L1)		Cheap to collect Wide range of data available May not be able to collect this information themselves	May be out of date Gathered for another purpose May not be valid/accurate	
	data; Gove	Analy schei	nt statistics. sis/Evaluation – award up t me below.	Newspapers; Internet/online o 10 marks using the levels-	
	1 10	1	wledge/Analysis/Evaluation		
	Level 3	9–10 metl	ast $2 \times \text{Level } 2 + 0$ marks for well justified recond to choose for the propalternative methods.	ommendation of which posed location and why not	
		7–8 choc	marks for limited recommer ose.	ndation of which method to	
	Level 2	Disc type: Deta	marks ussion of the method used s of customers and/or illed discussion of advantag method.	to find out the number and les and/or disadvantages of	
	Level 1	Nam		esearch stated or outlined e of the method of research

Question	Answer	Marks
1(b)	Level 1 – 1 mark for each L1 statement (max of 3 marks) e.g. Government statistics are cheap to collect.	
	Level 2 – 1 × L2 explanation can gain 4 marks and a further mark can be awarded for each additional L2 explanation (max 6 marks) e.g. Government statistics are cheap to collect and can be obtained quickly. However, the information may have been gathered for another purpose and may be of little use when trying to predict the pet owner requirements at the different locations. Level 2 – 4 marks plus one application mark for referring to the pet owners at the new locations)	
	Level 3 – For L3 to be awarded there needs to be at least two L2 marks awarded and then a recommendation of which method to choose.	
	Award up to 2 additional marks for relevant application.	
	Possible application marks: Animals; dogs; cats; pets; pet owners; washing and brushing animals; New City; expand and move to larger site; information on the three sites; information from Appendix 1 on the AH advert; complaint on the social media message; information from Appendix 3 on the costs and revenue of AH.	
	There may be other examples in context that have not been included here.	

Question	Answer	Marks
2(a)(i)	Calculate the profit per day for AH using the information in Appendix 3.	4
	Revenue per day = $(25 \times \$5) + (25 \times \$10) (1) = \$375 (1)$ (Award 1 mark for method of calculating revenue but incorrect answer)	
	\$375 – \$325 (1) (Award 1 mark for method of calculating profit but incorrect answer)	
	Profit per day = \$50 (1)	
	If \$50 with no working shown then award 4 marks.	

© UCLES 2017 Page 4 of 12

Question	Answer	Marks
2(a)(ii)	Identify and explain <u>one</u> way AH could use to increase profit from the existing site.	4
	Knowledge – 1 mark for correctly identifying one way profit can be increased.	
	Possible ways: Increase revenue (1) e.g. by increasing prices/advertising more/introducing a new service (1) Reduce costs/expenses (1) e.g. by finding cheaper suppliers/improving efficiency (1)	
	Analysis award up to 3 marks – 2 of which must be applied to this context – for a relevant explanation of one way AH could increase profit.	
	Indicative response:	
	Elsie could increase her revenue (1) by promoting her existing services to attract more customers.(1) This will lead to more pet owners using her services and paying for their animals to be washed and groomed. (1) If costs increase by less than the increase in revenue then profit will increase. (1)	
	Possible application marks: Animals; dogs; cats; pets; pet owners; washing and brushing animals; qualified animal nurse; set up 2 years ago; \$10 000 from grandfather; \$10 000 from bank loan; 12 adults and 6 children workers; paid legal minimum wage; shampoo and brushes purchased from wholesaler; expand and move to larger site; needs to recruit a new manager; information on the three sites; information from Appendix 1 on the AH advert; complaint on the social media message; information from Appendix 3 on the costs and revenue of AH.	
	There may be other examples in context that have not been included here	
2(b)	Consider why a cash flow forecast, an income statement and a balance sheet are important to AH. Which one of these do you think is most important to Elsie's decision about how to finance the new site? Justify your answer.	12
	Relevant points might include:	
	Cash flow forecast – predicts cash in-flows and outflows – to avoid liquidity problem – is there sufficient working capital for the larger premises? Income statement – records revenue and costs or shows profit and loss – profit available to reinvest into the new premises – indicator of success of the business – will there be sufficient revenue from larger premises to make profit?	
	Balance sheet – records assets and liabilities – liquidity ratios – stability of the business – amount of liabilities – value of the existing business – assets to sell if necessary	

© UCLES 2017 Page 5 of 12

Question	Answer	Marks
2(b)	Knowledge/Analysis/Evaluation – award up to 10 marks using the levels-based mark scheme below.	
	Knowledge/Analysis/Evaluation	
	Level 3 At least 2 × Level 2 + 9–10 marks for well justified recommendation as to which is most important to the decision about how to finance the new site.	
	7–8 marks for some limited judgement shown in recommendation as to which is most important in its general usefulness to the business.	
	Level 2 4–6 marks Discussion of each financial statement, how it can be used and why it is important.	
	Level 1 1–3 marks Outline of what each financial statement shows.	
	Level 1 – 1 mark for each L1 statement (max of 3 marks) e.g. A balance sheet shows the value of the business.	
	Level $2-1 \times L2$ explanation can gain 4 marks and a further mark can be awarded for each additional L2 explanation (max 6 marks) e.g. A balance sheet shows the value of the business. If Elsie wants to take out a bank loan then she will need to take the balance sheet to show the bank manager the value of the assets of the business that can be used as security for the loan. (4 marks for level 2)	
	Level 3 – For L3 to be awarded there needs to be at least two L2 marks awarded and then a recommendation which is most important to the decision.	
	Award up to 2 additional marks for relevant application.	
	Possible application marks: Animals; dogs; cats; pets; pet owners; washing and brushing animals; set up 2 years ago; \$10 000 from grandfather; \$10 000 from bank loan; 12 adults and 6 children workers; paid legal minimum wage; shampoo and brushes purchased from wholesaler; expand and move to larger site; needs to recruit a new manager; information on the three sites; information from Appendix 1 on the AH advert; information from Appendix 3 on the costs and revenue of AH.	
	There may be other examples in context that have not been included here.	

© UCLES 2017 Page 6 of 12

Question	Answer	Marks
3(a)	Identify and explain <u>two</u> possible ethical issues that AH should consider.	8
	Knowledge $[2 \times 1]$ – award one mark for each ethical issue ('Doing the right thing')	
	Analysis [2 × 1] – award one mark for a relevant explanation for each ethical issue	
	Application $[2 \times 2]$ – award two application marks for each ethical issue	
	Award one mark for each ethical issue (maximum of two), such as: Types of animals looked after – all legal? Welfare of animals/danger to animals	
	Working conditionsChild labour employed	
	Fair pay/paying minimum wageDisposal of waste in a responsible manner	
	Award a maximum of three additional marks for each explanation – 2 of which must be applied to this context – of the ethical issue	
	Indicative response:	
	AH employs children (K) and then pays them below the legal minimum wage. (ap) This keeps costs low but will give AH a bad reputation leading to a lower number of customers. (an) This will make it more difficult for Elsie to expand the business to a larger site as there may be insufficient number of customers to make this worthwhile. (ap)	
	Possible application marks: Animals; dogs; cats; pets; pet owners; washing and brushing animals; 12 adults and 6 children workers; paid legal minimum wage; complaint on the social media message; cage; rare animal	
	There may be other examples in context that have not been included here.

Question	Answer			
3(b)	Consider the advantages and disadvantages of the three sites Elsie is considering. Recommend which site is the best one for AH to choose. Justify your answer.			
	Relevant	points might include:		
		Advantages	Disadvantages	
	Site X	Lowest cost Plenty of room for large kennels – owners will like this Room to expand in the future so will not need to relocate again soon	Small farm buildings = not big enough Needs converting and a long way from customers – would they travel that far? Additional costs of \$10 000 to repair. Serving fewer customers than they have already = 25 per day	
	Site Y	Larger area – more demand Buildings in good repair so less required to convert them Serve twice as many customers as Site X and more customers than existing site	Additional costs of \$5 000 to convert the building. A lot fewer customers served than Site Z	
	Site Z	Existing customers – large demand – serve the most customers Near to many potential customers as in centre of city – convenient for customers	High cost – most expensive of the three sites Busy area – hard to park Limited space – small cages – not able to expand in the future – may need to move again in the future Cramped space may lead to bad reputation – lower quality services	
		ge/Analysis/Evaluation – award up ark scheme below.	o to 10 marks using the levels-	
		Knowledge/Analysis/Evaluation	1	
	Level 3	At least 2 × Level 2 + 9–10 marks for well justified reconose and why not the other s 7–8 marks for some limited jud recommendation as to best site	gement shown in	
	Level 2	4–6 marks Detailed advantages and/or disexplanation of the impact of the	<u> </u>	
	Level 1	1–3 marks Outline advantages and/or disasimple comparative statement	advantages of each site or	

© UCLES 2017 Page 8 of 12

Question	Answer	Marks
3(b)	Level 1 – 1 mark for each L1 statement (max of 3 marks) e.g. Site X is the cheapest of the three sites.	
	Level $2 - 1 \times L2$ explanation can gain 4 marks and a further mark can be awarded for each additional L2 explanation (max 6 marks) e.g. Site X is the cheapest of the three sites and this will reduce the amount of finance required to purchase the site. However, it is a long way from customers who are in the city centre and this may mean she has to reduce prices. (L2 = 4 marks plus one application mark for using the information in case)	
	Level 3 – For L3 to be awarded there needs to be at least two L2 marks awarded and then a recommendation which justifies the best site to choose.	
	Award up to 2 additional marks for relevant application.	
	Possible application marks: Animals; dogs; cats; pets; pet owners; ;washing and brushing animals; set up 2 years ago; \$10 000 from grandfather; \$10 000 from bank loan; 12 adults and 6 children workers; shampoo and brushes purchased from wholesaler; needs to recruit a new manager; information on the three sites; information from Appendix 1 on the AH advert; information from Appendix 3 on the costs and revenue of AH.	

© UCLES 2017 Page 9 of 12

Question	Answer	Marks
4(a)	Identify and explain <u>one</u> advantage and <u>one</u> disadvantage of using social media networks for the promotion of AH.	8
	Knowledge $[2 \times 1]$ – award one mark for each advantage/disadvantage. Analysis $[2 \times 1]$ – award one mark for a relevant explanation for each advantage/disadvantage. Application $[2 \times 2]$ – award two application marks for each advantage/disadvantage.	
	Award one mark for each advantage/disadvantage (maximum of two), such as:	
	Advantages	
	Cheap way to gain customer feedback	
	One unhappy customer can give the business a bad reputation quickly Message lost amongst many messages on social media Quickly forgotten and no hard copy to remind customers of the services provided Not all customers have access to internet/social media	
	Award a maximum of three additional marks for each explanation – 2 of which must be applied to this context – of the advantage/disadvantage.	
	Indicative response:	
	Using social media is very cheap (k) and will quickly get the message to a lot of people about the services provided by AH. (an) Many of these people may own animals and need help looking after them. (ap) The message will raise awareness of AH and make potential customers think about contacting them to have their animals washed and groomed therefore increasing sales. (ap)	
	Possible application marks: Animals; dogs; cats; pets; rare animals; small cage; washing and brushing animals; animals cared for overnight; pet owners; business set up 2 years ago; shampoo and brushes; expand and move to larger site; complaint on the social media message	
	There may be other examples in context that have not been included here.	

© UCLES 2017 Page 10 of 12

Question			Answer	Marks
4(b)	Consider the <u>advantages</u> of internal and external recruitment for the new manager. Recommend which method of recruitment is best for AH to use. Justify your answer.			12
	Relevant points might include:			
			Advantages	
	Internal recruitment		Lower recruitment costs Motivating for employees – increased chance of promotion – work hard Already know the business and processes – no induction training Suitability of applicants already known by the business	
	External recruitme	ent	New ideas New skills/experience Less training needed	
			ysis/Evaluation – award up to 10 marks using the levelseme below.	
	11 0		/ledge/Analysis/Evaluation	
	Level 3	9–10 use ir 7–8 r	ast 2 × Level 2 + marks for well justified recommendation as to whether to nternal or external recruitment and why not the alternative. marks for some limited recommendation as to whether to nternal or external recruitment.	
	Level 2	4–6 n Detai		
	Level 1	1–3 n Outlin		
			for each L1 statement (max of 3 marks) uitment is cheaper than external.	
	awarded f e.g. Intern existing er the new m employees carried ou the way th	or each al recru mploye nanage s can s t so tha neir anir	explanation can gain 4 marks and a further mark can be additional L2 explanation (max 6 marks) uitment is cheaper than external as it is carried out by es. They are used to the ways of working at AH and can tell r how things are done with the animals. The existing how the manager how the grooming and brushing is at customers do not see anything new and are happy with mals are looked after. (4 marks for L2 explanation plus one for referring to the grooming and brushing of animals)	
		and the	to be awarded there needs to be at least two L2 marks n a recommendation whether to use internal or external
