## Welcome

Cambridge International AS and A Level Travel and Tourism encourages learners to explore their subject in depth. The syllabus has been designed, in consultation with teachers and universities, to help learners develop not only subject knowledge, but also a strong understanding of some of the key concepts that are critical to mastering the subject.

All our syllabuses are reviewed and updated regularly so that they reflect the latest thinking of international experts and practitioners, and take account of the different national contexts in which they are taught. Consultation is an important part of the way we develop our syllabuses.

### Consulting teachers

Teachers at Cambridge schools worldwide help us to shape our Cambridge International AS and A Level syllabuses. The feedback contributes to the development of syllabus content, assessments and support materials. Consulting teachers ensures that our materials are designed carefully around their needs and the needs of their learners.

### Consulting universities

Like teachers, universities help to shape our Cambridge International AS and A Level syllabuses. We consult with leading higher education institutions to make sure the syllabuses encourage learners to get a firm grasp of the subject's key concepts and develop the skills necessary for success at university.

### Key concepts

Key concepts are essential ideas, theories, principles or mental tools that help learners to develop a deep understanding of their subject and make links between the different topics. The key concepts that this syllabus is designed to develop are detailed on page 5. The teaching support package helps teachers integrate the key concepts into their teaching, showing how they fit into the overall syllabus and suggesting ways to teach them with each topic.

### Teacher support

Our comprehensive teacher support will help you deliver the syllabus confidently and effectively. The support includes resources for teaching and learning as well as exam preparation. Learn more on page 7.

“ Cambridge International AS and A Levels prepare students well for university because they've learnt to go into a subject in considerable depth. There's that ability to really understand the depth and richness and the detail of a subject. It's a wonderful preparation for what they are going to face at university. ”

Christoph Guttentag, Dean of Undergraduate Admissions, Duke University, USA

## Why Cambridge International AS and A Level Travel and Tourism?

### About the syllabus

Through the study of the syllabus candidates:

- appreciate the scale and importance of the travel and tourism industry
- learn that the travel and tourism industry is dynamic in nature and how the industry responds to change, e.g. external factors such as changing consumer needs and expectations and developments in information technology
- recognise the positive and negative impacts the industry may have on people, environments and economies.

### Key concepts

The key concepts on which this syllabus is built are set out below. These key concepts can help teachers think about how to approach each syllabus topic in order to encourage learners to make links between topics and develop a deep overall understanding of the subject. The teaching support package gives teachers guidance on integrating the key concepts into their teaching. See page 7 for more information on our teacher support.

#### 1. Global and growing

The travel and tourism industry is a global industry. Changes in political and socioeconomic circumstances and technological developments contribute to the continuing growth of the travel and tourism industry and its importance to many national economies.

#### 2. Change and development

A key feature of the industry is its dynamic nature. The only constant is change. Exciting new enterprises, products or services are often developed in response to economic, political, social or technological change.

#### 3. Customer focus

Travel and tourism organisations provide products, services and facilities to meet customers' needs. In order for travel and tourism providers to be successful, they must adopt a strong customer focus. This means they must really understand who their customers are and how they can best meet their needs.

#### 4. Sustainability and responsibility

The Travel and Tourism industry has close links to destinations and so has a vested interest in ensuring environmental and sociocultural impacts are managed. Responsible management means that any developments must maximise the positive, and minimise the negative impacts of tourism.

### Guided learning hours

Guided learning hours give an indication of the amount of contact time teachers need to have with learners to deliver a particular course. Our syllabuses are designed around 180 guided learning hours for Cambridge International AS Level, and around 360 guided learning hours for Cambridge International A Level.

These figures are for guidance only. The number of hours needed to gain the qualification may vary depending on local practice and the learners' previous experience of the subject.

### Prior learning

Candidates beginning this course are not expected to have studied travel and tourism previously.

## Progression

### 4.4 Assessment criteria for coursework

There are 50 marks in total subdivided across **four** strands:

- Strand 1 Working in a team (12 marks)
- Strand 2 Choosing the event (13 marks)
- Strand 3 The business plan (12 marks)
- Strand 4 Running and evaluating the event (13 marks)

## Weightings of the assessment objectives across the strands

Assessment objective	Strand 1 Working in a team (marks)	Strand 2 Choosing the event (marks)	Strand 3 The business plan (marks)	Strand 4 Running and evaluating the event (marks)	Weighting
<b>A01</b>			12		<b>24%</b>
<b>A02</b>	12				<b>24%</b>

<b>A04</b>				13	<b>26%</b>
<b>Total</b>	12	13	12	13	<b>100%</b>

## Marking: general principles

1. You are encouraged to use the full range of marks, bearing in mind that it is not necessary for a candidate to give a faultless performance for maximum marks to be awarded within any single category.
2. Within any band, marks should be awarded on a 'best-fit' basis. Thus, compensation between higher and lower achievement for different aspects is acceptable.
3. Above all else, be consistent in your marking.

## Mark scheme for Strand 1 Working in a team (12 marks)

The candidate presents work logically, with use of appropriate terminology, so that meaning is clear and accurately conveyed. The work shows full understanding.</p> <p>At the lower end (10 or 11 marks), the work contains a comprehensive evaluation of both the candidate's own performance and the team's performance. All stages of the event are covered through the use of evaluative tools.</p>
	<p><b>Band 2 (6–9 marks)</b></p> <p>At the upper end (8 or 9 marks), the work includes valid recommendations. The candidate presents materials suitably with appropriate use of terminology and work will show good understanding.</p> <p>At the lower end (6 or 7 marks), the candidate evaluates both their own performance and the team's performance during and after the event and makes limited but realistic recommendations for improvement. Not all aspects are fully covered.</p>
	<p><b>Band 1 (1–5 marks)</b></p> <p>At the upper end (4 or 5 marks), the candidate makes some limited recommendations for improvement and many ideas may be unrealistic. 	<p><b>Band 0 (0 marks)</b></p> <p>No rewardable content.</p>

### Recording candidates' marks

Candidates' marks for the Coursework component must be recorded on the Individual Candidate Record Card produced by Cambridge. This form, and the instructions for completing it, may be downloaded from [www.cie.org.uk/samples](http://www.cie.org.uk/samples). The database will ask you for the syllabus code (i.e. 9395) and your Centre number, after which it will take you to the correct forms. Follow the instructions when completing each form.

The teacher must mark each candidate's coursework portfolio out of a total of 50, in line with the assessment criteria in Section 4.4.

### Witnessing the event

A Witness Statement Form witnessing the candidate completing the event must be submitted to Cambridge alongside the Individual Candidate Record Card. An example of this form may be downloaded from [www.cie.org.uk/samples](http://www.cie.org.uk/samples)

## 4.5 Moderation of coursework

### Internal moderation

If more than one teacher/examiner is used within a Centre, the Centre **must** make arrangements for the marks for **each** of the four strands of the assessment criteria to be moderated internally for the whole Centre. This means that the marks awarded to all candidates within a Centre must be brought to a common standard by the teacher responsible for co-ordinating the internal assessment (i.e. the internal moderator). If the marking of any teacher is found to be lenient or severe, it should be adjusted to bring it in line with the rest of the Centre's marking.

Once the Centre assessments have been internally moderated, they will then be externally moderated by Cambridge.

The internally moderated marks for all candidates must be recorded on the Coursework Assessment Summary Form. This form, and the instructions for completing it, may be downloaded from [www.cie.org.uk/samples](http://www.cie.org.uk/samples). The database will ask you for the syllabus code (i.e. 9395) and your Centre number, after which it will take you to the correct form. Follow the instructions when completing each form.

### External moderation

External moderation of internal assessment is carried out by Cambridge.

Centres must submit the internally assessed **marks of all** candidates to Cambridge.

Centres must also submit the internally assessed **work** of a **sample** of candidates to Cambridge. The *Cambridge Administrative Guide*, available on our website, provides details of which candidates are to be included in the sample.

The deadlines and methods for submitting internally assessed marks and work are in the *Cambridge Administrative Guide* available on our website.

### Resubmission and carrying forward of internally assessed marks

Information about resubmission and carrying forward of internally assessed marks can be found in the *Cambridge Administrative Guide*.

## 5. Glossary of command words

This glossary should prove helpful to candidates as a guide, although it is not exhaustive and it has deliberately been kept brief. The number of marks allocated for any part of a question is a guide to the depth required for the answer.

Define	Give the exact meaning of
Describe	Give a description of, explain the main features of
Identify	Name the key knowledge point
Illustrate	Give examples, use a diagram

Analyse	Explain the main points in detail, examine closely, separate into parts and show how all the parts connect and link

### Equality and inclusion

Cambridge International Examinations has taken great care in the preparation of this syllabus and related assessment materials to avoid bias of any kind. To comply with the UK Equality Act (2010), Cambridge has designed this qualification with the aim of avoiding direct and indirect discrimination.

The standard assessment arrangements may present unnecessary barriers for candidates with disabilities or learning difficulties. Arrangements can be put in place for these candidates to enable them to access the assessments and receive recognition of their attainment. Access arrangements will not be agreed if they give candidates an unfair advantage over others or if they compromise the standards being assessed. Candidates who are unable to access the assessment of any component may be eligible to receive an award based on the parts of the assessment they have taken.

Information on access arrangements is found in the *Cambridge Handbook*, which can be downloaded from the website [www.cie.org.uk/examsOfficers](http://www.cie.org.uk/examsOfficers)

### Language

This syllabus and the associated assessment materials are available in English only.

### Grading and reporting

Cambridge International A Level results are shown by one of the grades A\*, A, B, C, D or E, indicating the standard achieved, A\* being the highest and E the lowest. 'Ungraded' indicates that the candidate's performance fell short of the standard required for grade E. 'Ungraded' will be reported on the statement of results but not on the certificate. The letters Q (result pending), X (no result) and Y (to be issued) may also appear on the statement of results but not on the certificate.

Cambridge International AS Level results are shown by one of the grades a, b, c, d or e, indicating the standard achieved, 'a' being the highest and 'e' the lowest. 'Ungraded' indicates that the candidate's performance fell short of the standard required for grade 'e'. 'Ungraded' will be reported on the statement of results but not on the certificate. The letters Q (result pending), X (no results) and Y (to be issued) may also appear on the statement of results but not on the certificate.

If a candidate takes a Cambridge International A Level and fails to achieve grade E or higher, a Cambridge International AS Level grade will be awarded if both of the following apply:

- the components taken for the Cambridge International A Level by the candidate in that series included all the components making up a Cambridge International AS Level
- the candidate's performance on these components was sufficient to merit the award of a Cambridge International AS Level grade.

For languages other than English, Cambridge also reports separate speaking endorsement grades (Distinction, Merit and Pass), for candidates who satisfy the conditions stated in the syllabus.

## Entry codes

To maintain the security of our examinations, we produce question papers for different areas of the world, known as 'administrative zones'. Where the entry code has two digits, the first digit is the component number given in the syllabus. The second digit is the location code, specific to an administrative zone.

Entry codes and instructions for making entries can be found in the *Cambridge Guide to Making Entries*. Other exams administration documents, including timetables and administrative instructions, can be found at [www.cie.org.uk/examsOfficers](http://www.cie.org.uk/examsOfficers)
