Paper 3 Resista	ant materials	May/J	June 2010 1 hour

Candidates answer on the Question Paper.

No Additional Materials are required.

00

 $\infty$ 

To be taken together with Paper 1 in one session of 2 hours 15 minutes.

## **READ THESE INSTRUCTIONS FIRST**

Write your Centre number, candidate number and name on all the work you hand in. Write in blue or black pen. You may use a soft pencil for any diagrams, graphs or rough working. Do not use staples, paper clips, highlighters, glue or correction fluid. DO NOT WRITE IN ANY BARCODES.

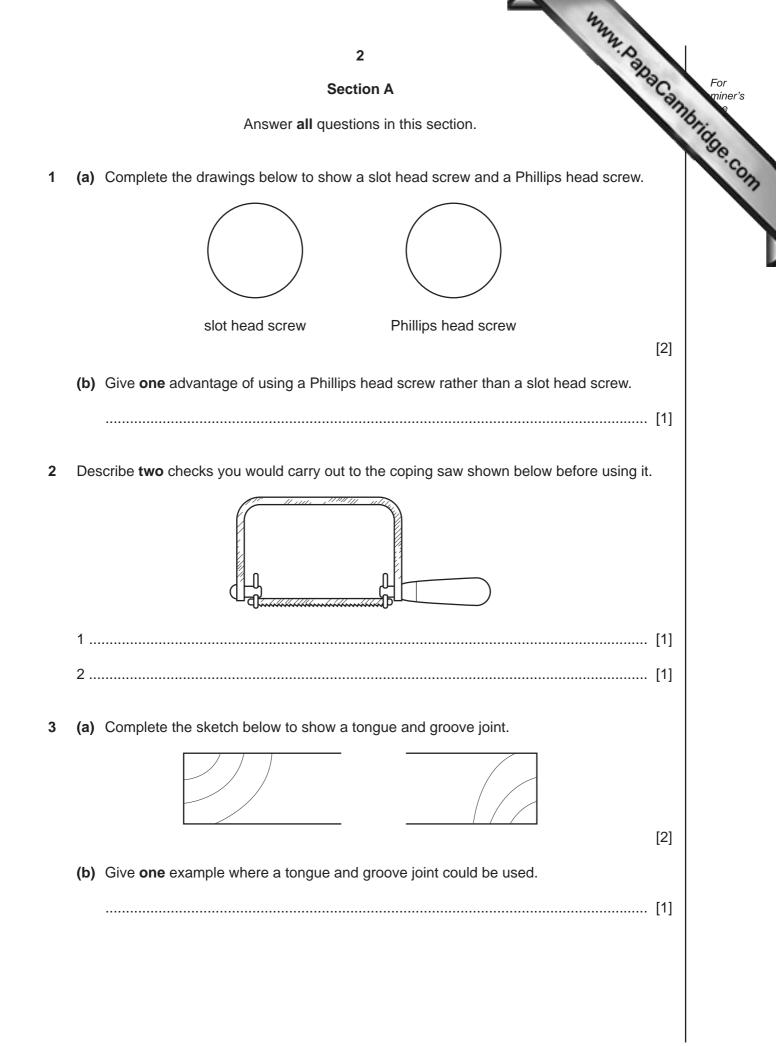

Section A Answer all questions in this section. Section B Answer one question in this section.

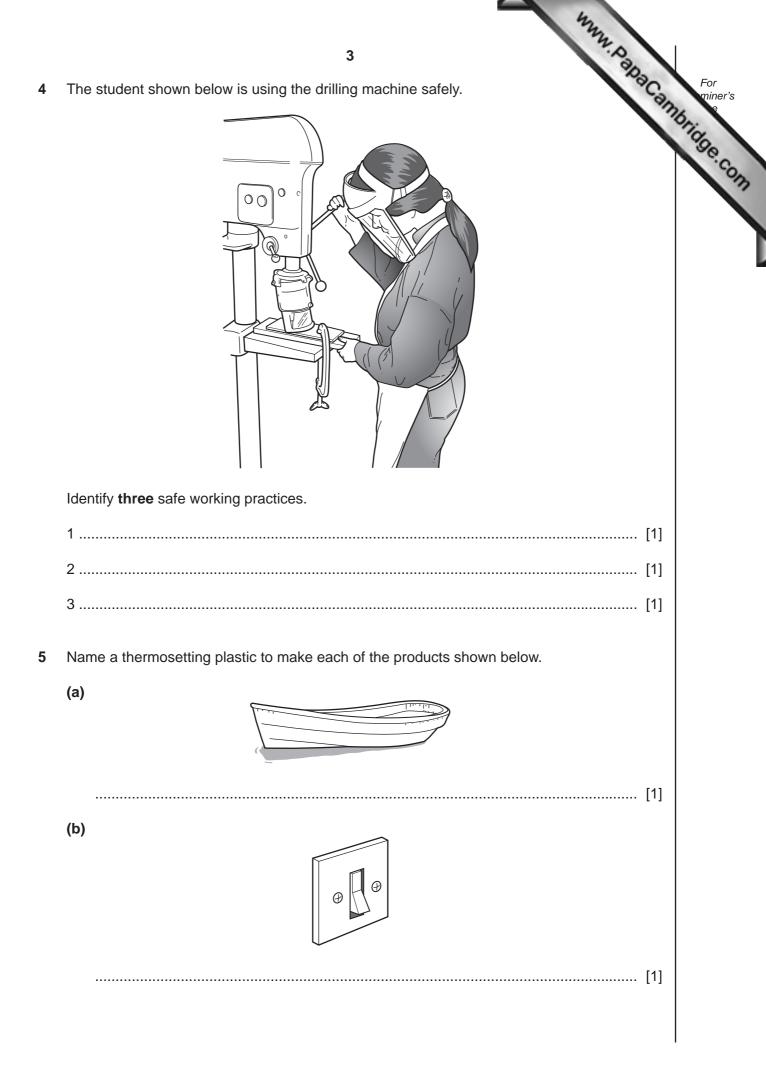

You may use a calculator.

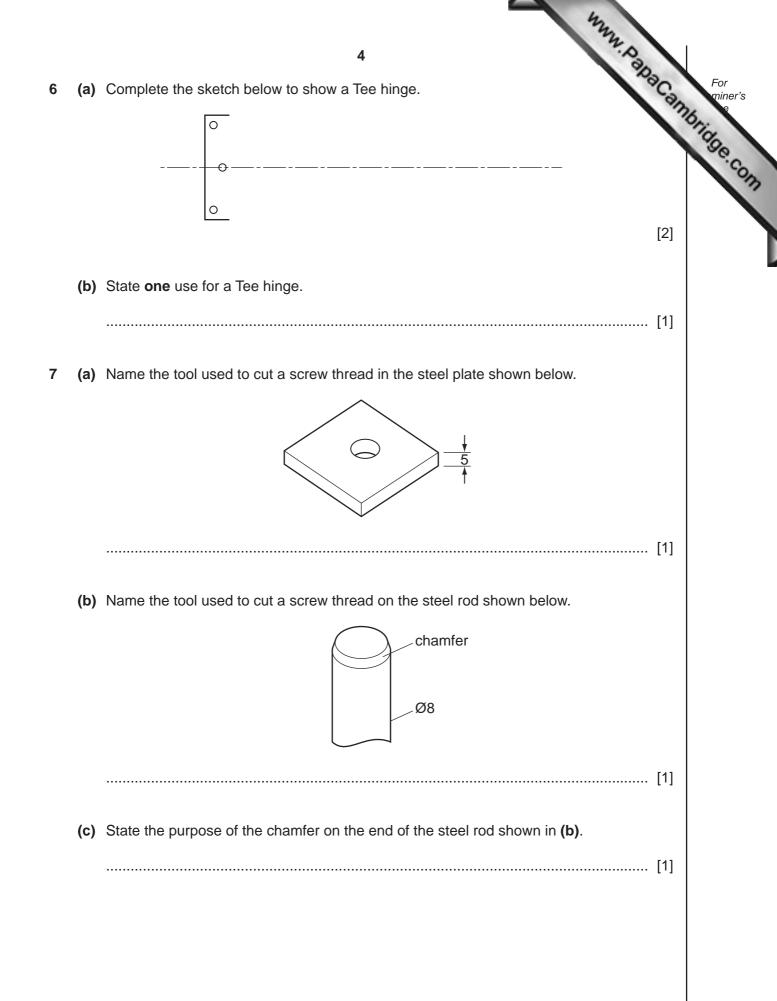

The total of the marks for this paper is 50. The number of marks is given in brackets [] at the end of each question or part question.

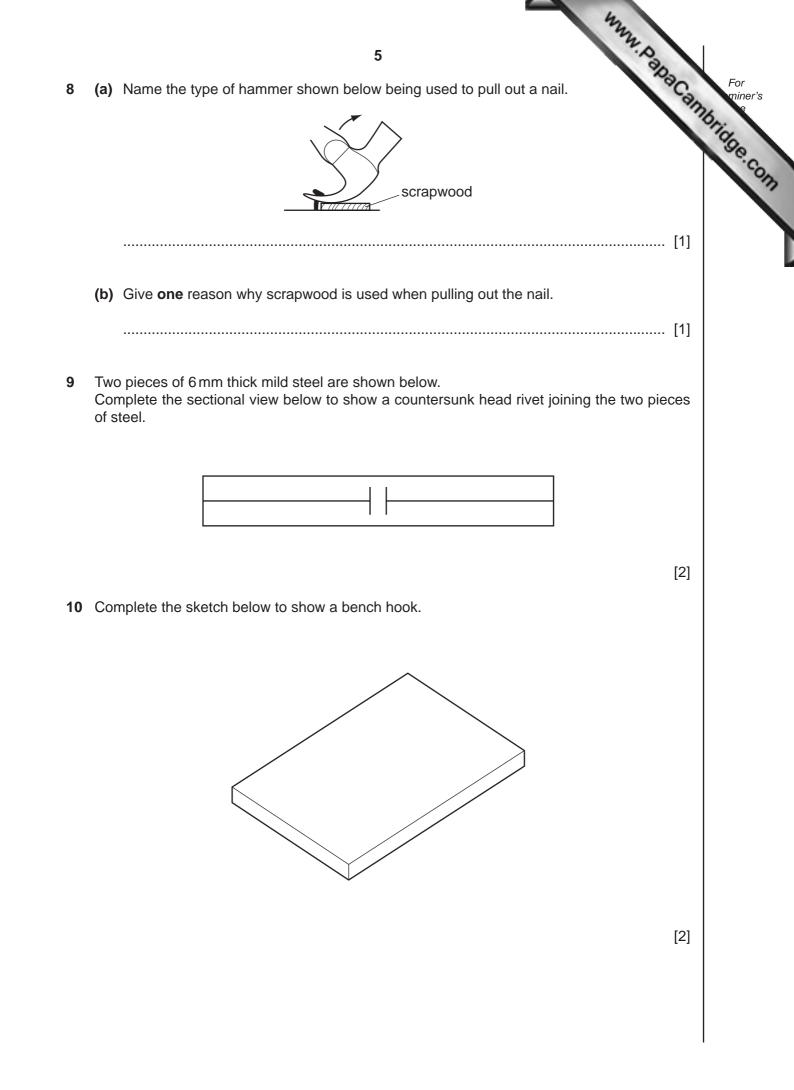

For Examiner's Use		
Section A		
Section B		
Total		

This document consists of **15** printed pages and **1** blank page.

6 Section B Answer one question in this section. 11 Fig. 1 shows an incomplete design for a cabinet made as flat pack for self-assembly.

500

200

(a) A cutting list of materials for the cabinet is shown below. Complete the cutting list.

В

Part	Number required	Length	×	Width	×	Thickness	Material
Тор	1	600	×	120	×	15	Veneered MDF
Base	1	600	×		×	15	Veneered MDF
Sides	2	500	×		×	15	Veneered MDF
Door	1		×	510	×	15	Veneered MDF
Shelf	1	600	×		×	15	Veneered MDF
Back	1		×		×	4	Plywood

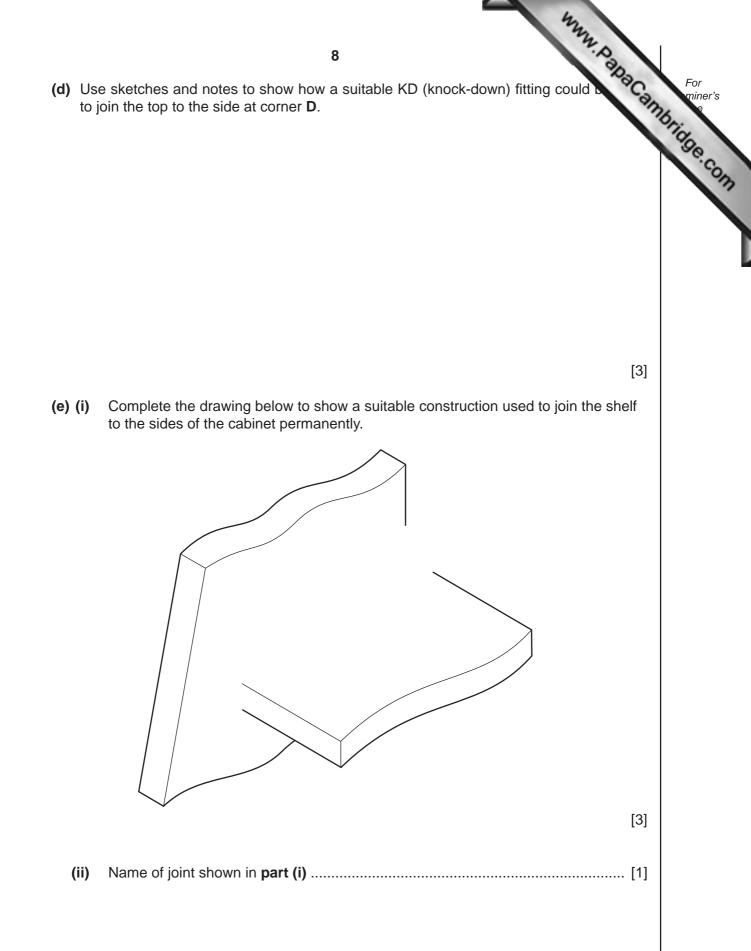

[6]

	7	
(b) (i)	Name three pre-manufactured components that could be used at :	For miner's
	A, to keep the door closed	brid
	B, to hold the door in a horizontal position when open[1]	.9e.co.
	C, to allow the door to pivot from the base[1]	133

(ii) Use sketches and notes to show how **one** of the pre-manufactured components named in (b)(i) would be fitted to the cabinet. Name the tools and equipment used.

[6]

(c) Use sketches and notes to show how the edges of the veneered MDF could be lipped to improve their appearance.

9

Question 12 starts on the next page

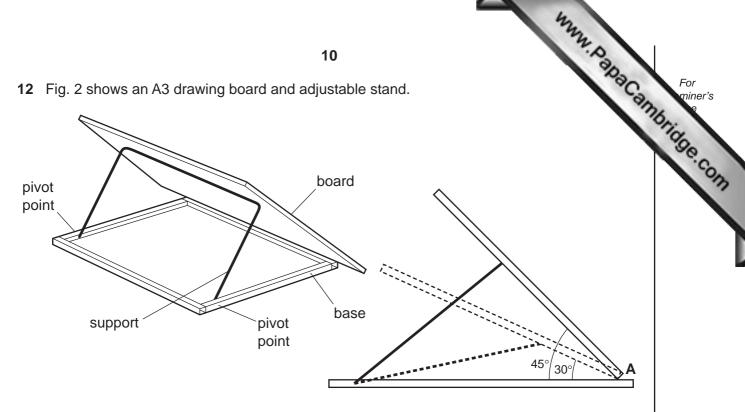

Fig. 2

(a) The base will be constructed from 20 mm square mild steel tube. Complete the table below by naming **one** specific tool or item of equipment used in each of the stages.

Stages	Tool or item of equipment
Marking out	
Sawing to length	
Squaring sawn ends	
Testing for squareness	
Cleaning the joint	
Brazing the joint	

[6]

	[5]
(c) The	e support will be made from Ø8 non-ferrous rod.
(i)	Name a suitable non-ferrous metal for the Ø8 rod.
(ii)	Give <b>one</b> advantage of using a non-ferrous metal rather than mild steel for the support.
(iii)	Use sketches and notes to show how the ends of the support are fitted to the base and allowed to pivot.

www.papacambridge.com (iv) Use sketches and notes to show how the support would be made from length of Ø8 non-ferrous metal rod.

(d) Use sketches and notes to show how the support could hold the board at angles of 30° and 45°. Include details of materials, fittings and fixings used.

13 Fig. 3 shows a former used to vacuum form a paint palette from polystyrene sheet. The former is made from MDF.

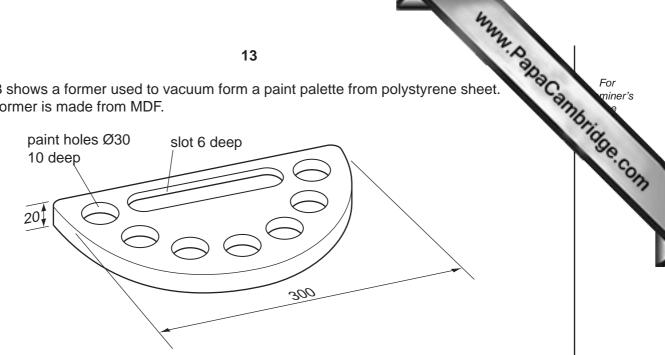

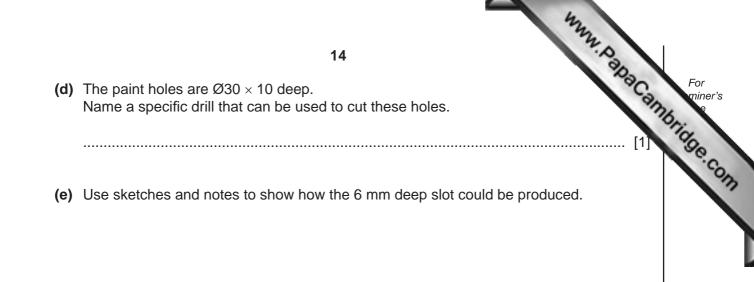

Fig. 3

(a)	Give two reasons why MDF is more suitable than solid wood for the former.	
	1	[1]
	2	[1]
(b)	Describe <b>three</b> important considerations when making a former for vacuum forming.	
	1	[1]
	2	[1]
	3	[1]

(c) Use sketches and notes to show how the former could be made from MDF. Do not include details of the holes or slot.

[5]

www.papacambridge.com (f) Use detailed sketches and notes to show how the paint palette could be formed.

- [8]
- (g) Sketch a modification to the design of the palette so that it could be easily held using only one hand.
