

MARK SCHEME for the October/November 2012 series

0470 HISTORY

0470/12

Paper 1, maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2012 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

1 Use of the Mark Scheme

- 1.1 It is not possible to cover every possible type of response within a levels of response scheme and examiners are expected to use their professional judgement at all times ensuring that responses are placed in the correct levels and given an appropriate mark within that level.
- 1.2 Marking must be positive. Marks must not be deducted for inaccurate or irrelevant answers. Half- marks must not be used.
- 1.3 The full range of marks should be used. Do not be afraid to award full marks or no marks. Failure to do this will seriously affect the distribution of marks. Be prepared to reward candidates who show any level of understanding. The mark scheme starts from basic acceptable response.
- 1.4 Be consistent from script to script and from batch to batch.
- 1.5 Indicate that all answers have been seen.
- 1.6 Do not transfer marks from one part of a question to another.
- 1.7 If a candidate reaches a particular level s/he must be rewarded with a mark within that level. It is not necessary to work through the levels.
- 1.8 Exhaustive lists of possible facts are not given in the mark scheme, as there is often a choice of factual knowledge that candidates may use.
- 1.9 **WHERE EXAMPLES OF RESPONSES ARE GIVEN, THESE ARE NOT PRESCRIPTIVE, BUT ARE INTENDED AS A GUIDE.**
- 1.10 Where a band of marks is indicated for a level these marks should be used with reference to the development of the answer within that level.

2 Marking

- 2.1 All marking should be in red.
- 2.2 The level, and mark awarded for each part question, **MUST** be shown clearly in the margin of the script towards the end of an answer, e.g. L3/8.
- 2.3 At the end of each question the total mark achieved by the candidate for that question **MUST** be indicated in a circle.
- 2.4 The total mark for each question should be transferred to the front page of the script. The marks for the three questions should be totalled and indicated. The final total for the script should then be circled.
- 2.5 It is not necessary to tick the body of an answer and examiners should refrain from doing so.
- 2.6 Examiners must indicate, in the body of the response, where a level has been achieved and, where appropriate, marks are gained.

3 Assessment Objectives

- 3.1 The Assessment Objectives being tested in each part of a question are:
 - (a) recall, description
 - (b) recall, explanation
 - (c) recall, explanation and analysis.

e.g. 'There was fighting.'

Level 2 Describes events [2–5]

(One mark for each relevant point; additional mark for supporting detail.)

e.g. 'On March 13 there was a demonstration by workers in the palace square in Berlin. Demonstrators threw stones at the troops and the troops responded by opening fire.'

'On March 18 a large crowd gathered outside the royal palace. The King appeared on the balcony and was cheered by the crowds.'

'The troops were ordered to disperse the crowd. Shots were fired by the troops either in panic or by accident after some jostling had taken place.'

'Students and workers immediately set up barricades and serious fighting broke out.'

'At least 300 rioters were killed as troops took control of the city.'

(b) Why was Germany not unified in 1848-50?

Level 0 No evidence submitted or response does not address the question [0]

Level 1 General answer lacking specific contextual knowledge [1]

e.g. 'Different opinions could not be resolved.'

Level 2 Identifies AND/OR describes reasons [2–3]

(One mark for each point.)

'Austria was strong militarily.'

Level 3 Explains reasons [4–7]

The liberals wanted constitutional government in all states and a united Empire with a national parliament. The radicals wanted complete social and political change within a republican framework. There was also disunity amongst the nationalists as they could not agree on the form a new Germany should take – unified state or federation, monarchy or republic, Grossdeutschland or Kleindeutschland.'

(c) How far was German unification the result of careful planning by Bismarck? Give your answer.

Level 0 No evidence submitted or response does not address the question

Level 1 General answer lacking specific contextual knowledge [1]

Level 3 Explanation of careful planning by Bismarck OR other reasons [3–5]

e.g. 'Bismarck analysed the strengths and weaknesses of European countries and developed his foreign policy around this. He could have pressed for the unification of all Germany in 1866, but he believed that if Prussia absorbed too much territory at once this would cause problems. Austria's defeat was followed by lenient treatment at the Treaty of Prague, thus ensuring neutrality if Prussia and France went to war.'

OR

e.g. 'The development of an integrated economy was important. This was aided by the Zollverein. In Prussia there was rapid industrial growth using the natural resources of coal and iron ore and this stimulated economic growth. This industry also enabled the development of a railway system, giving rapid mobilisation of troops and equipment. This financial strength and these physical resources were of great value on the battlefield against Austria.'

Dred Scott argued that he was automatically freed from slavery when he lived in free Illinois and Wisconsin.'

'It was decided that a slave was not a citizen of the United States and therefore could not bring an action in an American court.'

Level 3 Explains reasons [4–7]

(One mark for an explanation, additional mark for full explanation.)

e.g. ‘In order to strengthen the central government the Meiji had to get rid of the medieval feudal system. This meant that they abolished the privileges of the Samurai; the stipends of the Samurai were cut in half and later replaced by government bonds, and in 1876 they were actually forbidden to wear swords. This caused a lot of hardship and anger amongst the Samurai.’

This resulted in one army rather than a number of private ones and one strong government based in Tokyo, rather than a number of semi-independent regional governments.'

OR

e.g. 'A new constitution was introduced which allowed a constitutional monarchy. However, supreme power rested with the Emperor, with the head of the government being responsible to the Emperor and not the elected assembly. They felt that this showed the war in Vietnam had gone badly wrong and therefore American troops should be withdrawn.'

OR

e.g. 'The economic cost of the war in Vietnam was very high. By 1968 it was costing \$30 000 million each year. This meant that the government had to cut back on social reform. Level 3 Explanation of importance OR lack of importance [3–5]

OR

e.g. 'The UNO's involvement was not very important. The UNO's policy was that Korea should become one country with free elections supervised by the UNO. This did not happen as Korea remained divided. The UNO also failed to bring democracy to Korea as Kim ruled the North as a dictator until his death in 1994.'

Level 4 Explanation of importance AND lack of importance [5–7]
